

Remote Sensing Expert - Work full-time at Space-Startup LiveEO in the vibrant Berlin Start-Up ecosystem.

At LiveEO you are creating the backbone that enables us to do what we do. Be an essential part of a small team of motivated developers that want to create groundbreaking applications, making our lives safer, easier, more enlightened and ultimately, better.

Our company LiveEO

When you work at LiveEO you work at a space company. There are few things that excite us more than what space technology is enabling us to do, and that is what we are working on when we come to the office every day.

We don't care about borders and value diversity. Spanning 7 nationalities you would join our non-hierarchical team consisting of musicians, sports fanatics, gamers, mate (club- & traditional) lovers and above all New-Space visionaries.

- Remote work is possible on given occasions
- Great team and a great culture
- Flat hierarchies

Your challenge

- Find and develop powerful ways to apply high-resolution classification on a global scale, digesting large quantities of data in a quick, automated and highly scalable way.
- Develop and manipulate cutting-edge machine learning algorithms in different contexts.
- You can deliver against the backdrop of the companies vision of a high-quality, customer-centric and user-friendly product.

Your profile

- Very advanced programming skills in python and R.
- Best case, you have ≥ 2 years prior experience working as a remote sensing engineer at another earth observation company. Ideally with a focus on vegetation analysis, health monitoring and the identification of different tree species.
- You know your way around ML classification, time-series, and change detection or have a strong motivation to learn them.
- You have a strong desire to take responsibility and no problem to step-up and enable new and innovative ways to solve current and future problems and have no problem navigating in constantly changing and often ambiguous, startup-like environments.

Interested in this position? Send your CV and a short cover letter to jobs@live-eo.com and we will get to you as soon as possible.
