

Senior Geo- IT Developer (m,w,d)

Work at LiveEO in the vibrant Berlin Start-Up ecosystem

At LiveEO you will be working as a team lead and solution developer in a Berlin-based space Start-Up. Take our products to the next level and help us bring earth observation to the enterprise sector. Your task is to lead the development of analytical products for new business opportunities and iterate them with our business development team and potential customers.

Work at LiveEO

We are a young, open-minded, and diverse team with flat hierarchies, spanning different nationalities from all over the globe. We're excited about space, satellites and new possibilities to disrupt markets with state-of-the-art earth observation technologies. We are conveniently located in the center of Berlin-Kreuzberg at Gitschiner Str. 94.

Your challenges

- Coordinate a team of GIS specialists, software engineers and data scientists.
- Manage customer-facing and internal projects for developing analytical products based on satellite data.
- Take a proactive role in our agile organization and help the team with project planning and execution.
- Support the spatial data management team by expanding, handling and maintaining our spatial databases.

Your profile

- Ideally more than 3 years of professional experience as technical project manager / team lead in the geospatial industry.
- Proficiency in signal- and geo-processing in Python is a must.
- Experience with Remote Sensing Data
- Advanced experience with spatial databases (PostgreSQL/PostGIS) is an asset.
- Experience with cloud computing, especially AWS Batch clusters and Lambda functions is a plus.
- Fluency in English for verbal and written communication is required.
- You are willing to relocate to Berlin.
- We encourage female applicants as well as applicants with migratory background.

Interested in this position? Send your CV and a short cover letter to jobs@live-eo.com and we will get to you as soon as possible.
