

Full-Time Software Engineer, Junior (m,w,d)

Work at LiveEO in the vibrant Berlin start-up ecosystem

At LiveEO you will be working as an essential part of a Berlin based space start-up, bringing earth observation to enterprise customers. Join our RADAR-team and take our SAR products to the next level.

Work at LiveEO

We are a dynamic, open-minded, and diverse team with flat hierarchies, spanning different nationalities from all over the globe. We provide AI powered geospatial insights to our customers, utilizing earth observation and cloud technology. We are conveniently located in the center of Berlin-Kreuzberg.

Your challenges

- You will optimize and maintain processing software which analyzes Synthetic Aperture RADAR (SAR) data.
- You will automate this process at scale, to create robust systems capable of monitoring our clients assets.
- You will develop encapsulated services which run in a cloud environment.

Your profile

Required:

- Computer science or similar degree. (Graduated not more than 22 months ago).
- Linux experience.
- Bash scripting (or similar).

Nice to have:

- Python (or another high level language) experience.
- C/C++ (or C like language) experience.
- Docker or container technology experience.
- GMT and SAR experience.
- AWS or other cloud environment experience.
- Female candidates and/or candidates with a migration background are explicitly encouraged to apply

Interested in this position? Send your CV and a short cover letter to jobs@live-eo.com and we will get to you as soon as possible
