

Frontend Developer (f/m/x) for Map & Satellite Data Applications

Work at LiveEO in the vibrant Berlin startup ecosystem

LiveEO is applying the newest developments in artificial intelligence to analyze satellite data and is bringing the insights of earth observation data to customers in the enterprise sector with its unique SaaS solution.

LiveEO is standing at the forefront of a new space industry, is venture capital backed and consists of an incredible, international team which is building something big.

As a Front End Developer at LiveEO you will be working as an essential part of our team and will help us to identify new opportunities and to bring earth observation to enterprises across the earth.

Work at LiveEO

We are a dynamic, open-minded, and diverse team with flat hierarchies, spanning different nationalities from all over the globe. We're excited about space, satellites and new possibilities to disrupt markets through the commercialization of the space industry. We are conveniently located in the center of Berlin-Kreuzberg at Gitschiner Str. 94.

Your challenges

- Develop new functions and interfaces that our customers and users interact with.
- Optimize our web application for maximum usability, speed and scalability.
- Build reusable code for future use.
- Work closely with our Web & Mobile Developers, UX Designer, Product Manager and other people within the company to define and implement requirements that fit the overall vision of our product.
- Develop an understanding of how the frontend interacts with the work of our Machine Learning and Geo IT teams to build a holistic product and ensure smooth processes from start to finish.
- Take a proactive role in our agile and scaling organization and utilize your skills with great project planning and execution.

Your profile

- 2+ years of experience in frontend development with proven track record
- Degree with programming component or self-taught
- Solid frontend development skills (i.e. HTML/CSS, JavaScript, working with APIs)
- Experience with React
- Experience working with AWS architecture
- Experience with Mapbox or other map-based applications is a big plus
- Experience with WebGL is a plus
- Experience with serverless architecture is a plus
- Experience with Node and Redux is a plus
- Experience with Sass is a plus
- Knowledge of agile methodologies (e.g. Scrum, Kanban) and experience working in agile environments
- Track record of goal-oriented project execution.
- High degree of self-management and process efficiency.
- Fluency in English for verbal and written communication is required, German is a plus.
- You live in or are willing to relocate to Berlin.
- We would like to encourage female applicants as well as applicants with a migratory background.

Your benefits

- The opportunity to help create a product that can improve business processes & life across the globe.
- Front row seat in the development of a multinational market leader in a new industry.
- Flat hierarchies as well as short and open communication.
- Start-up culture with a high degree of freedom and responsibility.
- Fair compensation, potential participation in the employee stock option program.
- Great international team.
- Office located in the center of Berlin Kreuzberg, free fruits & drinks.
- Flexible home office arrangement & working hours.
- International team and frequent team events
