

Android & iOS Developer (m/w/d) for Map & Satellite Data Applications

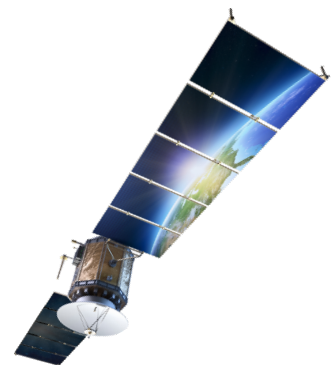

Do you want to build powerful applications that bring the value of earth observation to enterprise? Do you enjoy learning new things on a daily basis? Can you make it your mission to drive the development of a new industry? Then this is the right job for you!

Work at LiveEO in the vibrant Berlin startup ecosystem

LiveEO is applying the newest developments in artificial intelligence to analyze satellite data and is bringing the insights of earth observation data to customers in the enterprise sector with its unique SaaS solution.

LiveEO is standing at the forefront of a new space industry, is venture capital backed and consists of an incredible, international team which is building something big.

As an Android & iOS Developer at LiveEO you will be working as an essential part of our team and will help us to monitor assets with satellite data and machine learning all over the globe.

Your challenges

- Work in close collaboration with our product manager, UX designer, other front end developers, and the back end teams.
- Deploy and maintain our apps in Android and iOS and build new features to bring the full value of LiveEO's satellite-based analyses to our customers.
- Deploy and maintain databases on applications for offline usage.
- Work in an agile environment and proactively bring your own ideas into the process.
- Develop an understanding of how the apps interact with the work of our Machine Learning and Geo IT teams to build a holistic product and ensure smooth processes from start to finish.
- Take a proactive role in our agile and scaling organization and utilize your skills with great project planning and execution.

Your profile

- Ideally more than three years experience in app development for both iOS and Android.
- Solid experience in API usage and Databases.
- Solid experience of Swift and Kotlin.

- At least basic experience in NodeJs.
- Experience in Mapbox or other map-based applications is a plus.
- Knowledge of agile methodologies (e.g. Scrum, Kanban) and experience working in agile environments
- Track record of goal-oriented project execution.
- High degree of self-management and process efficiency.
- Fluency in English for verbal and written communication is required, German is a plus.
- You live in or are willing to relocate to Berlin.
- We would like to encourage female applicants as well as applicants with a migratory background.

Your benefits

- The opportunity to help create a product that can improve business processes & life across the globe.
- Front row seat in the development of a multinational market leader in a new industry.
- Flat hierarchies as well as short and open communication.
- Start-up culture with a high degree of freedom and responsibility.
- Fair compensation, potential participation in the employee stock option program.
- Great international team.
- Office located in the center of Berlin Kreuzberg, free fruits & drinks.
- Flexible home office arrangement & working hours.
- International team and frequent team events
